We are SRM members because we feel it is critical to continue building the partnerships necessary to manage private and public rangelands. The educational factor between agency people and private landowners through SRM assist with keeping us up to date on the latest science, as well as provides the scientific community with the opportunity to hear firsthand what land managers need to do a better job of managing our ever changing rangeland resources.

When asked why SRM is important to the Lees, their response was:

“We are always looking for ways to expand our learning opportunities so we can continue to care for our greatest renewable resource.”

What is SRM?
SRM is the leading professional society committed to conservation through science-based rangeland stewardship.

SRM members represent diverse interests including:
- Ranching and livestock production
- Extension and outreach
- Research and education
- Professional Consulting
- Ecology (rangeland, soil, restoration, vegetation, watershed, etc.)
- Wildlife
- Social science
- Tribal and private land management
- State and federal agencies

Why become a member?
SRM provides connections to rangeland managers and the current science in topics such as:
- Developing healthy landscapes
- Grazing management
- Livestock behavior and production
- Forage production
- Riparian improvement
- Rangeland policy and conservation issues
- Invasive species management
- Wildlife habitat potential
- Endangered species partnerships
- Fire use and management
- Recreational opportunities

Join SRM today!
Regular member: $100 US
Apprentice member: $70 US
Student member: $45 US
