

## 2026 VIRTUAL EVENTS

### Monday, February 9<sup>th</sup>

#### 8am-10am

Plenary Session

#### 10:20am-Noon

Symposia: Navigating Public Perception of Targeted Grazing

Symposia: Characterizing the Solar Savannah: Integrated Research Insights into a Novel Grazing Ecosystem

Symposia: Uncaged: How Bird-Friendly Ranching is Forging New Alliances on Rangelands

Workshop: IYRP 2026 Stakeholder Action-Planning for North America

#### 1:20pm-3pm

Symposia: Livestock Foraging Behavior: Practical Use of Precision Technologies for Grazing Animal Management

Symposia: Meeting the moment: current research to effectively scale targeted grazing for fire and invasive plant management

Symposia: Rangeland Ethnobotany: Ecology and Management of Culturally Significant Plants

Workshop: IYRP 2026 Stakeholder Action-Planning for North America

#### 3:20pm-5pm

Symposia: Meeting the moment: current research to effectively scale targeted grazing for fire and invasive plant management

Symposia: Rangeland Ethnobotany: Ecology and Management of Culturally Significant Plants

Workshop: IYRP 2026 Stakeholder Action-Planning for North America

Ignite: Bolster the Range Profession

### Tuesday, February 10<sup>th</sup>

#### 9am-10am

Plenary Session

#### 10:20am-Noon

Symposia: The practical, applied use of drones in rangeland restoration and revegetation

Symposia: Global Herd, Shared Knowledge: Integrating Inclusive Practices in Rangeland Education

Workshop: Not If, but When: Preparing for Foreign Animal Disease on Public and Tribal Rangelands

Ignite: Grazing lands tools for conservation planning and assessment: recent research and products from the NRCS Conservation Effects Assessment Project

Ignite: International Year of Rangelands and Pastoralists (IYRP2026): 12 global themes Ignite awareness and action

1:20pm-3pm

Symposia: Five Years of 3M: Monitoring Impacts of Grazing Management Across Ecological and Socioeconomic Dimensions

Workshop: Not If, but When: Preparing for Foreign Animal Disease on Public and Tribal Rangelands

Symposia: Exploring Habitat Conservation Economics and Community Satisfaction Related to Lesser Prairie Chicken (LPC) Management in the Southern Great Plains

3:20pm-5pm

Symposia: Five Years of 3M: Monitoring Impacts of Grazing Management Across Ecological and Socioeconomic Dimensions

Workshop: The Missing Link in Rangeland Success: The Manager's Mindset

Workshop: Not If, but When: Preparing for Foreign Animal Disease on Public and Tribal Rangelands

Workshop: Ag Tech on Rangelands – The new Range Tech and how Range Tech helps tell our story

**Wednesday, February 11<sup>th</sup>**

8am-10am

Plenary Session

10:20am-Noon

Symposia: Managing variability and non-equilibrium in rangelands: from theory to practice

Symposia: State of the Science: Climate Outcomes from Grazing Lands Management Practices

Symposia: From South to North America: Perspectives on diverse pastoral systems in celebration of the IYRP

Symposia: Ranching with Wolves: The Policy, Politics, and Price of Coexistence in California

Symposia: Metabolic Health: The Rangeland Connection

1:20pm-3pm

Symposia: Managing variability and non-equilibrium in rangelands: from theory to practice

Symposia: Anthropologists on the Range: Some ethnographic views of livestock care, precarity, and life-ways in North America and Africa

Symposia: Using Smart Foodscapes to Enhance the Sustainability of Western Rangelands

Symposia: Ranching with Wolves: The Policy, Politics, and Price of Coexistence in California

Symposia: Metabolic Health: The Rangeland Connection

Ignite: Case Studies for Integrating Remote Sensing and Field Data for Rangeland Monitoring and Decision-Making

Ignite: The voice of Pastoral Youth from South to North America: celebrating the IYRP El voz de jovenes pastores desde sudamerica hasta norteamerica: una celebraci3n del AIPP

3:30pm-6pm

SRM Honor & Student Awards
