

# THE SOCIETY FOR RANGE MANAGEMENT

## INFORMATION

SRM is the leading professional society committed to conservation through science-based rangeland stewardship.

### SRM provides:

- Local (section-level), national and international connections and networking
- Links between research and applied management
- Collaborative efforts between all facets of rangeland community
- Voice in Washington D.C. supporting rangeland related positions and funding
- Local, national and international symposiums, workshops, trade shows, and field tours
- Outlet for current rangeland science and technology, including scientific journals

### SRM members represent diverse careers and interests including:

- Research and education
- Extension and outreach
- State, Provincial and Federal agencies
- Tribal and private land management
- Professional consulting
- Ecology (rangeland, soil, restoration, vegetation, watershed, engineering, etc.)
- Wildlife specialists
- Ranching and livestock production
- Social science
- Rangeland Economics
- Environmental Policy and Law
- Others interested in rangeland management and conservation
