

RANGELANDS

Without Borders ★ SRM 2023

Society for Range Management | February 12-16, 2023 | Boise, Idaho

2023 SRM Annual Meeting

SCHEDULE: TECHNICAL SESSIONS

Monday, Feb. 13th

8am-10am: Plenary

10am-11:30am

Symposium: Strand (10am-5pm)

The emerging urgency of fuel breaks: developing a better understanding of likely impacts on wildfire, plants, wildlife, and people

Symposium: Derner

What role do rangelands play in climate neutrality for beef production?

Workshop: Hall

VGS User Group Workshop

Workshop: Macon (10am-3pm)

Range Sheep Production Systems: Current trends, issues and innovations

Workshop: Mealor (10am-3pm)

Invasive Annual Grass Management: From Satellites to Surveys to Spray Decisions

Workshop: Dial

Walking the borderline: How crossing, eliminating, or acknowledging boundaries can lead to positive change in rangelands [Diversity & Inclusion Forum]

Contributed Oral Session: Riparian

Contributed Oral Session: Fire Session 1

Contributed Oral Session: Restoration 3

Contributed Oral Session: Grazing 5

1pm-3pm

Symposium: Strand

The emerging urgency of fuel breaks: developing a better understanding of likely impacts on wildfire, plants, wildlife, and people

Symposium: Reinhart

Understanding the potential (risks) of carbon ranching to mitigate climate change

Symposium: Kreuter

Fire and herbivory for restoring and maintaining the delivery of ecosystem services in rangelands

Workshop: Macon (10am-3pm)

Range Sheep Production Systems: Current trends, issues and innovations

Workshop: Meador (10am-3pm)

Invasive Annual Grass Management: From Satellites to Surveys to Spray Decisions

Symposium: Orozco (1-5pm)

Producer & Young Producer's Symposium: Rangelands Across the World

Workshop: Coppock (1pm-5pm)

Stakeholder Engagement for the International Year of Rangelands and Pastoralists (IYRP) 2026: Action Planning Workshop for the North American Region

Symposium: Perotta

Global perspectives on using geospatial approaches for rangeland ecology and management

Contributed Oral Session: Plant Ecology: Shrubs

Contributed Oral Session: Grazing—Fencing/Virtual Fencing

Contributed Oral Session: Avian Wildlife

3pm-5pm

Symposium: Foster

Measuring rangeland management impacts on carbon and ecosystem services: Insights across disciplinary borders

Symposium: Strand (10am-5pm)

The emerging urgency of fuel breaks: developing a better understanding of likely impacts on wildfire, plants, wildlife, and people

Workshop: Anderson

Applying Grazing to Meet Landscape and Vegetation Objectives: Targeted Grazing in the Great Basin and Surrounding Rangelands

Symposium: Orozco (1-5pm)

Producer & Young Producer's Symposium: Rangelands Across the World

Workshop: Coppock (1pm-5pm)

Stakeholder Engagement for the International Year of Rangelands and Pastoralists (IYRP) 2026: Action Planning Workshop for the North American Region

Contributed Oral Session: Restoration 1

Contributed Oral Session: Invasives

Contributed Oral Session: Tech/UAVs

Contributed Oral Session: Plant Ecology: Climate, Drought

Contributed Oral Session: Grazing Management Systems

5pm-6:30pm

Poster Session

Tuesday, Feb. 14th

8am-9am: Plenary

9:30am-11:30am

Workshop: Kaplan

Data Management – Plans, Storage, and Access (A PSA, public service announcement)

Symposium: Owen (9:30am-5pm)

Beyond Meat - Can soil carbon and ecosystem service markets in the U.S. West generate complementary funding for rangeland stewardship?

Symposium: Brown

An Appreciation of the Contribution of Dr. Steve Archer to Arid land Ecology and the Management of Rangelands

Symposium: Brennan

Virtual Fence Technology: Challenges and opportunities for implementing virtual fence across public, private, and research sectors.

Symposium: Di Stefano

The Role of Invasive Exotic Plant Species in Reclamation and Restoration

Symposium: Crist

Strategies and Tools for Prioritizing Management Actions in Sagebrush Ecosystems

Contributed Oral Session: Sensing

Contributed Oral Session: Restoration 2

Contributed Oral Session: Grazing- International

11am-1pm: Business Meeting Lunch

1pm-3pm

Workshop: Harrison

Putting the R in Rangelands: Data Management and Visualization Using Tidyverse in R

Symposium: Owen (9:30am-5pm)

Beyond Meat - Can soil carbon and ecosystem service markets in the U.S. West generate complementary funding for rangeland stewardship?

Ignite: Germino

Research

Symposium: Stonecipher

Poisonous Plants Across Rangelands

Symposium: Wu (1pm-5pm)

Cultivating future rangeland professionals and rangeland-literate public – An integrated cross-boundary approach of the Prairie Project

Workshop: Roath (1pm-5pm)

SRM Leadership Initiative

Workshop: Winford (1pm-5pm)

Mesic Area Restoration: Assessment, Implementation, and Monitoring

Contributed Oral Session: Grazing- Misc.

Contributed Oral Session: Plant Ecology- Mixed

3pm-5pm

Symposium: Applestein

Utilizing current statistical methods for proper ecological inference and applications to management

Symposium: Owen (9:30am-5pm)

Beyond Meat - Can soil carbon and ecosystem service markets in the U.S. West generate complementary funding for rangeland stewardship?

Ignite: McCord

Applications of gap intercept monitoring methods to understand rangeland ecological dynamics

Symposium: Charnley

Wolf-Livestock Conflict Management on U.S. Forest Service Lands

Symposium: Wu (1pm-5pm)

Cultivating future rangeland professionals and rangeland-literate public – An integrated cross-boundary approach of the Prairie Project

Workshop: Roath (1pm-5pm)

SRM Leadership Initiative

Workshop: Ash

International Rangeland Congress, Australia 2025: An opportunity to stimulate US-Australia rangelands collaboration

Workshop: Winford (1pm-5pm)

Mesic Area Restoration: Assessment, Implementation, and Monitoring

Contributed Oral Session: Exotic Annual Grasses 2

Contributed Oral Session: Carbon

5pm-6:30pm

Poster Session

Wednesday, February 15th

8am-9am: Plenary

9:30am-11:30am

Symposium: Gunnell

Wildland Transplanting: The Next Frontier of Landscape Scale Vegetation Restoration?

Workshop: Birrenkott

What you really need to know about the Carbon Market with Good Grazing Makes Cent\$

Symposium: Chambers

Understanding the effects of fuel treatments in sagebrush ecosystems

Symposium: Baival

Rangeland Stewardship Council (RSC): Towards rangelands sustainability certification and verification

Workshop: Wollstein (9:30am-3pm)

Planning and management under new wildfire realities using a fireshed-scale approach

Workshop: Edinger

Solutions for the Rangeland Workforce Crisis (GS 0454) – Moving Forward

Workshop: Naumann

Scaling ecological management frameworks in a changing world.

Contributed Oral Session: Fire

Contributed Oral Session: Social Science 1

11:30am-1pm: Lunch

1pm-3pm

Campfire: Gunnell

Wildland Transplanting: Overcoming Limitations in Equipment and Infrastructure

Campfire: Macon

Ecological Calendars: Exploring a Climate Adaptation Tool

Campfire: Hendrickson

Breaking down borders to enhance knowledge and improve management of invasive perennial grasses

Campfire: Jablonski

Art and Science: Grazing Management Principles for the 21st Century

Workshop: Wollstein (9:30am-3pm)

Planning and management under new wildfire realities using a fireshed-scale approach

Workshop: Hulet

Rangeland Educational Resources iROAM

Workshop: Weichman

Actionable Science Plan for the Integrated Rangeland Fire Management Strategy

Contributed Oral Session: Plant Ecology 3

Contributed Oral Session: Social Science 2

3pm-6pm: Honor and Student Awards
